How much does a solar inverter cost?

Note: These prices are just estimates and vary on factors such as the brand, features, and installation requirements. But for the Micro solar inverter, a unit typically costs around £90 – £100. meanwhile, for a 3.5 kW solar panel system comprising 10 panels, you will need to spend either £890 or £1,510 for 10 microinverters.

What is a solar inverter?

A Solar inverter simply converts the direct current (DC) electricity produced by your solar panels into alternating current (AC) electricity that can be used in your home and exported back to the grid. There are three main types of inverters: String Inverters, Grid-Tied Inverters and Micro Inverters.
