

How many 5G base stations will Germany build

Overview

When is 5G available in Germany?

The updated map shows data from April 2024. 5G has been available in Germany since late 2019. The roll-out of the 5G network was initially based primarily on 4G infrastructure, with existing access networks being upgraded or new radio sites constructed.

Which cities in Germany have a 5G network?

Cities with the higher number of 3.6 GHz stations include Berlin, Munich, Hamburg and Cologne. The telco also said it is currently focusing on the provision of 5G in rural areas across Germany via spectrum in the 700 MHz band. The carrier also said it expects to cover the country's overall population with 5G by the end of 2025.

Will 5G reach 80% of Germany's population in 2022?

During 2022, Germany's largest operators have been focusing on the expansion of their 5G networks, with some operators already offering coverage to more than 80% of the country's population. German carrier Deutsche Telekom recently said its 5G network already reaches 94% of the country's population.

How many 5G base stations are there in the United States?

While China leads in sheer numbers, the U.S. is making steady progress. By late 2023, the country had between 150,000 and 200,000 active 5G base stations. The deployment strategy in the U.S. is different from China's, as it relies on private investment rather than government-led initiatives. Is this article too long?
