

How many base stations are there in Italy for 5G communication operations

Overview

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.

How many 5G radios are there in India?

The number of 5G radios in India just crossed 100,000 according to latest data released by the Department of Telecommunications. A base station generally manages multiple radios so not sure how many base stations would be there for 5G and even for older Gs.

Does Italy have 5G?

As of December 2024, 5G coverage in Italy has significantly increased, thanks to investments by telecom operators and progressive expansion of the network. However, the percentage of coverage varies by source and region, as 5G is being deployed first in urban and densely populated areas, with slower progress in rural and mountainous areas.

What is a 5G infrastructure project in Italy?

In 2022, the Italian government announced a 5G infrastructure programme funded by the EU Recovery and Resilience Facility (RRF). Under this proposal, INWIT Infrastructure Wireless, a joint venture between Italian mobile operators Vodafone and TIM, has won six lots of funding with a combined value of EUR 345m (USD 359m).
