

# How much does a solar water pump cost in summer

## Overview

---

How much does a solar water pump cost?

The cost varies dramatically. A small, all-in-one solar fountain pump kit can be \$20 - \$50. A larger solar well pump costs between \$1,200 and \$3,000, for an average of \$2,000. Prices depend on the well pump size, flow rate, and more. What are the disadvantages of a solar water pump?

.

Are solar-powered water pumps worth it?

There are no running costs with solar-powered water pumps, and they are really easy to install, meaning you don't have to worry about mains wiring or a complicated set-up. While solar panel powered pump kits work best in full sun, many of our solar pump kits also come with a battery back-up, so they can keep pumping even when the sun isn't shining.
