

How much does an outdoor high-power wireless AP base station cost

Overview

Is TP-Link a good wireless base station?

TP-LINK's 5GHz 300Mbps * Outdoor Wireless Base Station is specifically designed to provide an effective solution for outdoor wireless networking applications. With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point, point-to-multipoint, and outdoor Wi-Fi coverage.

What is an outdoor WiFi access point?

An outdoor WiFi access point, like the one from RadioLabs, allows for instant connection to it from all WiFi enabled devices, including Security Cameras. It provides WiFi coverage to areas outside, such as Pools, Gazebos, public event centers, arenas, stadiums, college or school campus' etc.

What is a Wireless Access Point?

A Wireless Access Point (WAP) is a device that acts as a powerful wireless hotspot or WiFi Radio, allowing direct connection to your network without any internal routing.

How do radiolabs high power outdoor access points work?

To use a RadioLabs high power outdoor Access Point, connect it to your network router with a single CAT-5 cable. This cable provides both power and data to the powerful outdoor access point / antenna system.
