

# How to buy and replace batteries in the battery cabinet

## Overview

---

How do I replace a battery?

**Turn Off the Device:** Always power off the device before replacing batteries.

**Open the Battery Compartment:** Access the battery holder by removing the cover or panel.

**Remove Old Batteries:** If present, carefully take out the old batteries.

**Inspect the Compartment:** Check for corrosion or debris and clean if necessary.

**Insert New Batteries:**

What is a battery cabinet?

The battery cabinet is installed in a standalone configuration. The term standalone refers to battery cabinets that may be installed adjacent to the UPS or in a separate location, are wired with external customer-supplied conduit and wiring, and may use the battery cabinet breaker as the battery isolation device or a switch.

How do I install a battery cabinet?

Connect each battery cabinet and the UPS or battery disconnect using conduit.

Battery cabinets may be installed adjacent to the UPS or in a separate location.

If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.

Where is the battery cabinet located?

The recommended installation location for the battery cabinet is on the right side of the UPS cabinet. This

location will allow for future expansion using an external module. Cabinets can

be permanently bolted to the floor or left standing on leveling feet. Power and

control wiring can be routed through the top or bottom of the cabinet

depending on installation.
