

How to charge for lithium-ion batteries in solar container communication stations

Overview

What are the lithium-ion batteries in containers guidelines?

The Lithium-ion Batteries in Containers Guidelines seek to prevent the increasing risks that the transport of lithium-ion batteries by sea creates, providing suggestions for identifying such risks and thereby helping to ensure a safer supply chain in the future.

Should lithium-ion batteries be transported by sea?

Transport of lithium-ion batteries by sea has sparked concern over container fires. The Lithium-ion Batteries in Containers Guidelines seek to prevent the increasing risks that this transport creates, providing suggestions for identifying such risks and thereby helping to ensure a safer supply chain in the future.

Can lithium-ion batteries be transported safely in containers?

Industry bodies have united to produce "Guidelines for safe transport of Lithium-ion batteries in containers".

How do you ship lithium ion batteries?

Goods must be labelled as "Lithium Ion Battery" or "Lithium Metal Battery" and include appropriate shipping marks and hazard labels. Lithium batteries must have the correct documentation – including a Dangerous goods declaration, air waybill, and packing list. Can you Ship Lithium-ion Batteries Internationally?
