

Huawei distributed energy storage full liquid cooling super charging pile

Overview

How many Huawei Supercharge charging piles will be installed in China?

(Yicai) Dec. 8 -- Huawei Technologies will join hands with its clients and business partners to install over 100,000 Huawei SuperCharge charging piles along major roads in China next year. The project will touch more than 340 Chinese cities, Hou Jinlong, president of Huawei Digital Power Technology, said during an industry forum yesterday.

What is Huawei Supercharge?

Founded in 2021, the unit of the Shenzhen-based telecoms giant focuses on clean energy generation, data centers, and electric mobility. Huawei launched the SuperCharge platform this year to enable a range of more than 200 kilometers after just five minutes of charging.

What is Huawei digital energy refueling station promotion plan?

On February 27, at the 2024 Huawei China Digital Energy Partner Conference, Huawei Digital Energy Technology Co., Ltd. (hereinafter referred to as "Huawei Digital Energy") released a fully liquid-cooled The supercharging station promotion plan claims to "make the refueling charging experience a reality."

What is Huawei Digital Energy Plan for 2024?

According to the plan, Huawei Digital Energy will build more than 100,000 Huawei fully liquid-cooled supercharging piles in more than 340 cities and major highways across the country in 2024 to create "one network for cities", "one network for high speeds" and "one power grid". "Friendly" charging network.
