

Huawei installs solar panels in Lisbon

Overview

Is Huawei fusion solar a good investment in Portugal?

Bruno Santo, responsible for Huawei Fusion Solar in Portugal, says this is a strong investment of the company in the country with the objective of “gaining a very relevant position with the main national players in this market, reflecting the success of Huawei in Spain”. In his opinion, “the next ten years are very promising in Portugal”.

Where is Huawei focusing on solar energy?

In Spain, it has already installed 1.5 GW. The next target is Portugal. Huawei is now focusing on solar energy, having already created a new business area – Huawei Fusion Solar -, present in 170 countries, from China to Argentina, the Netherlands, Spain, Saudi Arabia, Mexico, India, Japan, Turkey, Vietnam, Dubai, among many others.

Why do solar panels shut off in Portugal?

The majority of solar panel systems in Portugal automatically shut off in the event of a power outage for safety. This happens so electricity is not fed back into the grid, potentially harming technicians working on the lines. However, there are solutions such as SmartGuard by Huawei, to keep your system running during the power outage.

Should you install solar power in Portugal?

You may want to relocate as an expat, renovate your home as an investor, or be a pensioner looking for efficiency; solar installation in Portugal is an inexpensive option. Aside from cutting your electricity bills, solar power can make you an independent individual and the proud possessor of an asset-rich property.
