

LLSE CONTAINERS

Huawei solar container battery operation direction

Overview

How to store a battery in a packing case?

A battery recharge label must be put on the battery packing case. The recharge label should contain the latest charge time and the next recharge time. Place batteries according to the signs on the packing case during storage. Do not put batteries upside down or sidelong.

How do you store a battery?

Place batteries in a dry and clean place with proper ventilation. Place batteries in a place that is away from corrosive organic solvents and gases. Keep batteries away from direct sunlight. Keep batteries at least 2 meters away from heat sources. The batteries in storage must be disconnected from external devices.

How often should a warehouse keeper collect battery storage information?

The warehouse keeper shall collect battery storage information every month and periodically report the battery inventory information to the planning department. The batteries that have been stored for nearly 15 months (at -10°C to +25°C), 9 months (at 25°C-35°C), or 6 months (at 35°C-55°C) shall be charged in a timely manner.

How do I charge a battery with a solar inverter?

Connect to the inverter, choose Power adjustment > Battery control on the home screen, and set related parameters. Set this parameter to Maximum self-consumption. PV power is preferentially supplied to loads, and the surplus PV power is used to charge the battery.
