

Hybrid solar inverter factory in Melbourne

Overview

Which solar inverter is best for Australia & New Zealand?

China's solar inverter manufacturer GoodWe has released its ET G2 Series in Australia and New Zealand, a 6-15 kW three-phase high-voltage hybrid inverter. The ET G2 is tailored to the Australian and New Zealand household market, offering features like smart load control, 100% unbalanced output, and streamlined installation.

What is a hybrid inverter?

A hybrid inverter (also known as a multi-mode inverter) is capable of managing the electricity output of solar panels and charging a battery system, while also operating with mains grid supply. Given this extended capability, they cost more than standard string solar inverters.

How many SMA inverters are there in Australia?

Over 750,000 SMA inverters have already been installed across Australia alone, producing more than 35% of all solar electricity in the country. With more than 40-years of global legacy in PV, SMA has a large presence and is the chosen European PV inverter manufacturer brand in the Australian solar market.

Who are Solis inverters?

Solis Inverters (the company), a global powerhouse in the solar energy industry, has been acknowledged as the world's no.3 solar. © 2021 Copyright Solis Australasia Pty Ltd.
