

# **Installation of glass tiles on solar panels**

## Overview

---

Can solar panels be installed on a tile roof?

Yes, solar panels can be installed on a tile roof. In fact, companies have developed methods to install solar panels on tile roofs. Before installation, there's a pre-installation or preparatory stage to consider.

How to install solar tiles?

Use stainless screws (supplied). Remember Hole 1 depending on the stringing layout. Remove the diagonal foam strip (not shown here) from the tile by the roof edge. Use white spirit not required. Ridge Tile Fitting: The way the solar tiles lap means that there is a significant step at the ridge.

How do I install a roof-integrated solar panel?

Roof-integrated solar panel installation is a simple process with Marley SolarTile® - just secure the fixings, place the first tile, push-fit additional tiles and then attach final fixings and flashings.

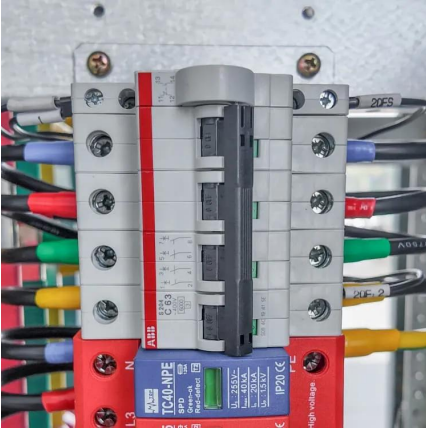

What is the new way to replace tiles for solar installation?

The new, better way: Double-flashed tile replacements that perfectly fit in place of a single tile. Replacing small sections of tile with composite shingles, installing mounts meant for composite shingle roofs, and placing dummy tiles over the holes. Cutting or drilling into tiles to attach hooks under them that support solar racks.
