

# Installing solar panels in Jordan

## Overview

---

Why does Jordan need a solar PV installation & maintenance service?

Since Jordan started the solar PV installation in 2012, the demand for solar PV operation and maintenance (O&M) services increased, driven by aging systems requiring inverter replacements (every 8-10 years) and system optimization.

How many solar panels are installed in Jordan?

According to annual reports by Jordan's grid operators, the total installed on-grid solar PV capacity reached 2,073.86 MW by the end of 2024. This capacity is divided as follows: Distribution System Operators (DSOs): 1,081.86 MW across 74,145 projects. Transmission System Operator (TSO): 992 MW. The largest DSO-managed installations were by:.

How much does solar cost in Jordan?

The commercial sector faces higher grid fees of 13 JD (\$18.3 USD) per kWac/month, reducing the economic viability of installations. In September 2024, Jordan's Council of Ministers lifted the cap on solar PV project sizes, enabling large-scale installations.

Is there a cap on solar PV projects in Jordan?

In September 2024, Jordan's Council of Ministers lifted the cap on solar PV project sizes, enabling large-scale installations. A notable example is a 50 MW solar power plant financed by Cairo Amman Bank and currently under construction.
