

# **Iranian cylindrical large monomer solar container lithium battery**

## Overview

---

Will Iran expand its home-grown infrastructure for lithium batteries?

TEHRAN, Jul. 10 (MNA) - Iran is planning to expand its home-grown infrastructure for production of lithium batteries to respond to the electrification needs in its automotive sector, a senior official in the country's defense ministry announced.

Why did Iran launch a lithium battery plant in March?

The defense ministry launched Iran's largest plant for production of lithium battery packs in March to increase production capacity by 35% and to remove any need for imports of the product. MA/Press TV.

Can Iran make lithium batteries for electric vehicles?

Reza Shojaei, who serves as a deputy head at the Iranian defense ministry's department for energy resources, said on Tuesday that Iran has the technology needed to design and manufacture lithium batteries that are used in electric vehicles.
