

Ireland Mobile Energy Storage Container 20kW

Overview

Could energy storage be possible in Ireland?

The International Energy Research Centre's (IERC) Executive Director Tony Day discusses the potential for energy storage in Ireland. The Cork-based IERC was established as a centre of international excellence in integrated energy systems research. The organisation conducts research in energy efficiency and low carbon energy delivery.

Could Donegal's rusting battery containers be the key to Ireland's energy future?

Ireland's energy future depends on more than just building wind and solar farms. We need energy to be both clean and dependable - when the wind blows and when it doesn't. That requires strategically located, long-duration storage. Donegal's rusting battery containers might be a critical step towards that future.

What is energy storage Ireland (ESI)?

1. Introduction Energy Storage Ireland (ESI) is a representative association of over 70 public and private sector organisations who are interested and active in the development of energy storage in Ireland and Northern Ireland.

What is the Ballynahone energy storage project?

Known as the Ballynahone Energy Storage project, it will look modest - a collection of weatherproof containers on a three-hectare site beside an electrical substation - but what it represents could be transformative.
