

# Is there any BESS solar container outdoor power in Bahrain

## Overview

---

Where is a solar power plant located in Bahrain?

The solar power plant will be located in the southern region of Bahrain, near Bilaj Al Jazayer, covering a total area of approximately 1.2 square km. The project will utilise the latest advancements in solar energy technologies to optimise output and efficiency.

Is solar energy suitable for Bahrain?

Bahrain has the opportunity to use solar energy, as it receives an estimated solar radiation of 6 kWh/m<sup>2</sup>/day ( Alnaser et al., 2014 ). The country's global horizontal irradiance is 2160 kWh/m<sup>2</sup>/year, while direct normal radiation is 2050 kWh/m<sup>2</sup>/year ( IRENA, 2014 ).

Why are there no barriers to solar PV installation in Bahrain?

None of the participants mentioned any reported barriers to installation of solar PV in Bahrain. This is likely because solar panel installation is relatively new in Bahrain and the participants were not clear on the specifics involved. Effective dissemination of information is necessary, as explained later.

How many megawatts will Bahrain produce by 2025?

Bahrain will have to produce 280 megawatts of electricity from renewables by 2025, increasing to 710 megawatts by 2035, to meet the country's renewable energy targets.

## Is there any BESS solar container outdoor power in Bahrain
