

# **Is there any outdoor power source for charging in Kyrgyzstan**

## Overview

---

Do I need a power adapter in Kyrgyzstan?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Kyrgyzstan, you will need a power adapter and/or a voltage converter/transformer.

What type of plug does Kyrgyzstan use?

Kyrgyzstan uses two different plug types: C and F. Plug type C is the plug which has two round pins. Plug type F is the plug which has two round pins with two earth clips on the side. Both plug types are widely used in the country, so you should be able to find compatible outlets in most places.

What if my devices are not compatible with the voltage in Kyrgyzstan?

However, if your devices use a different plug type or are not compatible with the voltage in Kyrgyzstan, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Kyrgyzstan is 220 V, and the standard frequency is 50 Hz.

Do Europeans need a travel adapter in Kyrgyzstan?

Europeans do not need a travel adapter or transformer when traveling to Kyrgyzstan. Most device plugs will work with the outlet types in Kyrgyzstan. Also, the voltage in Kyrgyzstan is the same as in Europe. What Outlet does Kyrgyzstan Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.
