

# **Jordan comes with inverter voltage protection**

## Overview

---

Do I need a voltage converter in Jordan?

In Jordan the standard voltage is 230 V and the frequency is 50 Hz. You can't use your electric appliances in Jordan without a voltage converter, because the standard voltage in Jordan (230 V) is higher than in Canada (120 V). You can seriously damage your appliances. You need a voltage converter in Jordan!.

Can I plug my devices in Jordan without a voltage adapter?

You can plug your devices to the electric network grid in Jordan without requiring a voltage adapter. You will be able to plug the devices directly in Jordan (please read other sections of this reports in regards to voltage, etc.).

What voltage is used in Jordan?

Voltage used in Jordan is 230V and the electrical frequency is 50Hz. (more details after you choose where are you plugs from.) Petra Select your departure country for a detailed report of adapters, plugs and handling advise for electronics abroad. Are your plugs from United States of America?

.

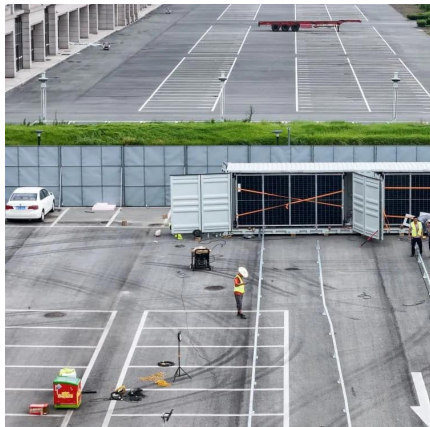

Do inverters need protection?

Without proper protection, an inverter can be damaged by power surges, voltage spikes, and other electrical disturbances. There are several types of protection that can be used to protect inverters: Surge protection: This type of protection is designed to protect the inverter from power surges and voltage spikes.
