What happened to EPA power plant in Lebanon?

EPA Lebanon's state electricity company (EDL) announced on Saturday that it could no longer supply power after its last operational power plant exhausted its fuel reserves. The company said the situation would affect “essential facilities such as the airport, port, water pumps, sewage systems, and prisons.”.

What happened to EDL in Beirut 2024?

The offices of Electricite du Liban in Beirut on August 17, 2024. EPA Lebanon's state electricity company (EDL) announced on Saturday that it could no longer supply power after its last operational power plant exhausted its fuel reserves.

How will a power cut affect Lebanon?

The company said the situation would affect “essential facilities such as the airport, port, water pumps, sewage systems, and prisons.” It also noted that from noon on Saturday, it “resulted in a total power cut ” of state electricity across Lebanon.

What happened to electricity in Lebanon?

Along with Israel blockading the Lebanese coast, it led to the near exhaustion of fuel supplies. State electricity in Lebanon is available for a maximum of around four hours a day. Those who can afford it rely on expensive diesel-powered private generators to fill the gap, although very few provide power for 24 hours.
