

Latest Romanian PV Energy Storage Policy

Overview

Will Romania's natural gas storage facilities reach 80% capacity?

BUCHAREST, Oct 3 (Reuters) - Romanian natural gas storage facilities have been filled above a targeted 80% capacity and could reach 90% by Nov. 1, deputy Energy Minister Dan Dragan said on Monday. Unlike other countries in the region, Romania relies less on Russian gas.

Are solar panels a smart long-term investment in Romania?

With the scheduled removal of the energy price cap on April 1, more Romanians are turning to solar energy to reduce expenses and secure their energy supply. Rising electricity tariffs have further accelerated interest in renewable solutions, particularly in the residential sector, where solar panels are becoming a smart long-term investment.

Will Romania expand its photovoltaic sector in 2025?

Romania is set for a significant expansion in the photovoltaic sector in 2025, driven by funding programs such as Casa Verde and RePower EU, the liberalization of energy prices, and a growing interest among Romanians in achieving energy independence.

Is Romania's future energy landscape favorable to storage?

Romania's future energy landscape is expected to be favorable to energy storage, with around 480 MWh of capacity planned to be deployed by the end of 2025, according to Balan. He also mentioned plans for a 2 GW battery industry by the same year.

Latest Romanian PV Energy Storage Policy

[Romania Scraps Double Taxation Of Energy Storage To ...](#)

Jul 21, 2025 · The new regulation requires grid operators to mandatorily report energy storage data, and it applies uniformly to both concession and non-concession entities. This new ...

[Romania Abolishes Double Taxation on Energy Storage, ...](#)

Jul 10, 2025 · On July 8th, Romania's Energy Regulatory Authority (ANRE) officially approved new regulations abolishing double taxation on battery energy storage systems (BESS). The ...

[Romania mandates energy storage for prosumers](#)

Jul 2, 2024 · Romania's parliament has adopted a bill mandating prosumers with PV systems with capacities from 10.8 kW to 400 kW to install energy storage systems.

[Romania ends double taxation of energy storage](#)

Jul 9, 2025 · The National Energy Regulatory Authority of Romania has approved a regulation eliminating double taxation of energy storage, to allow for faster deployment of solutions for ...

[Romania Renewable Energy Storage Regulations: Key ...](#)

Oct 9, 2025 · Discover Romania's updated legal framework for renewable energy storage. Learn how new regulations, incentives, and grid rules shape investment opportunities in battery and ...

[Residential energy storage systems Romania](#)

Energy Policy Group (2020), Romania's Energy Storage: Assessment of Potential and Regulatory Framework, December 2020. The European Green Deal, with its flagship policy, the Climate ...

[Romania energy storage systems a review](#)

Aug 22, 2025 · Does Romania have a storage policy? In response to EU Regulation 2019/943, which clarifies the role of storage and its ownership status, the Romanian authorities ...

Romania's solar energy market set for rapid growth in 2025

Feb 6, 2025 · Romania is set for a significant expansion in the photovoltaic sector in 2025, driven by funding programs such as Casa Verde and RePower EU, the liberalization of energy prices, ...

Subsidies for battery and PV panel production and electricity storage

Jun 26, 2024 · In 2022, Romanian Ministry of Energy launched a state aid scheme supporting of investments in building manufacturing capacity for production, assembly and recycling of ...
