

LLSE CONTAINERS

# Latvian containerized generator BESS

## Overview

---

Will Latvenergo become Baltic leader in battery energy storage systems?

Energy company Latvenergo said February 18 it is investing heavily in battery systems with the stated intention of becoming the the Baltic market leader in battery energy storage systems (BESS).

Where is the first battery energy storage system in Latvia?

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region.

Will Bess be able to deploy storage capacity across Baltic states?

"Future projects will be carefully evaluated to strategically deploy storage capacities across the Baltic states in order to maximise the benefits for the security of supply and customers," the company added, giving a broad hint that it will also be looking to place BESS assets in Estonia and Lithuania.

How will Latvenergo improve the security of supply?

The innovations and infrastructure of Latvenergo will not only strengthen the security of supply but also the development of the Baltic region." BESS, or Battery Energy Storage System, is a technology that allows electricity to be stored with the objective of feeding it back into the grid at times of peak demand.

## Latvian containerized generator BESS

### [Latvia adds big batteries to complete grid sync with Europe, ...](#)

Oct 30, 2025 · The addition of two utility-scale battery energy storage systems (BESS) in Latvia marks the final milestone in synchronizing the Baltic power grids with continental Europe, ...

### [Latvia's largest battery energy storage system unveiled](#)

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 ...

### [Latvia: first BESS opens ahead of Russia grid uncoupling](#)

Nov 7, 2024 · Latvia's first utility-scale battery storage project has been commissioned, while Fotowatio Renewable Ventures has entered the Finland market.

### [Latvenergo plans 250 MW of energy storage by 2030](#)

Feb 24, 2025 · Latvian state-owned utility Latvenergo AS has decided to invest in a new business area in its portfolio with plans to install 250 MW/500 MWh of battery energy storage

capacity ...

### [POWER: Latvia's Latvenergo Eyes 250MW of Baltic BESS by ...](#)

Latvian Latvenergo is planning to install 250MW of BESS capacity in the Baltics by 2030, according to the firm, cited by LETA. \* The initial capacity will be installed in Latvia near its ...

### [Utilitas Launches Latvia's First Utility-Scale Battery Energy ...](#)

Nov 5, 2024 · Estonian renewable power and heat producer Utilitas has inaugurated Latvia's first utility-scale battery energy storage system (BESS), featuring a capacity of 10 MW and 20 ...

### [Latvia's Energy Landscape Evolves with New Battery Storage ...](#)

Nov 8, 2024 · The commissioning of this BESS project aligns with Latvia's broader strategy to transition to a low-carbon economy and strengthen its energy security. By diversifying its ...

## Latvenergo invests in plans to become the Baltic market ...

Feb 21, 2025 · Latvenergo, a state-owned energy company based in Latvia, plans are to expand its generation portfolio with the development of battery energy storage systems (BESS), ...

## Latvenergo positive about Baltics' battery-powered future

Feb 18, 2025 · The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and ...
