Can electrifi bring electricity to Lesotho's off-grid villages?

ElectriFI signed a development finance loan of EUR 100,000 with OnePower Africa, to study the feasibility of bringing affordable and reliable electricity to 25 off-grid villages in Lesotho, giving families, schools, health clinics, and local businesses the opportunity to thrive.

How is power generated in Lesotho?

Power generation is provided by solar panels mounted on trackers manufactured in Lesotho, deep-cycle batteries, and a backup generator at each site. The engineering design of each system individually ensures that a backup generator (typically LPG) accounts for no more than 6% of total consumption.
