

Lisbon user-side energy storage project

Overview

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva.

How will Portugal improve grid resilience after April blackout?

Government outlines €400 million plan to strengthen grid resilience after April blackout. Portugal will launch a competitive tender for 750 MVA of battery energy storage before January 2026, as part of a broader €400 million package aimed at improving grid reliability and preventing future blackouts.

Is Portugal ready for power outages?

The announcement was made by Portugal's Minister for Environment and Energy, Maria da Graça Carvalho, who said the country is now better prepared for potential power outages, though "hopefully they won't happen," and expects to see clear improvements in the national grid over the next three years.

Which solar-plus-storage projects are available for public consultation?

The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal.
