Lithium power station factory in Albania

Overview

Will Albania build its first lithium ion battery plant?

Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

How many power stations are there in Albania?

This article lists the main power stations in Albania. There were 144 active power stations operating in the country in 2016. The table below lists only stations that have at least 10 MW of power capacity. As of 2022, there were 16 solar projects totaling 570 MW planned in Albania. [^] Spasić, Vladimir (2022-01-17).

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.
