## Overview

---

Could a battery storage system save the UK energy system?

The UK government estimates technologies like battery storage systems – supporting the integration of more low-carbon power, heat and transport technologies – could save the UK energy system up to £40 billion (\$48 billion) by 2050, ultimately reducing people’s energy bills.

Who is custom power?

Formerly Steatite batteries, Custom Power is a specialist supplier of custom built lithium battery packs, COTS battery modules, portable power and energy storage systems for industrial, energy, autonomous and defence applications.

What is energy SuperHub Oxford?

Energy Superhub Oxford is a UK Government-backed project which is pioneering an integrated approach to decarbonising power, transport and heat. The Superhub will help Oxford achieve net zero by 2040. The project showcases a powerful network that combines rapid EV charging, hybrid battery storage, low carbon heating and smart energy management.

How can EDF power solutions help the UK & Ireland?

EDF power solutions is set to play an important role in helping to modernise our grid to ensure that the UK and Ireland can transition away from fossil fuels and make the most of new renewables coming online. We have identified sites in strategic locations across the UK and Ireland, connected directly to the transmission network.
