

London Large Energy Storage Unit

Overview

What is the UK's largest battery energy storage system?

National Grid has energised what is being billed as the UK's largest battery energy storage system (BESS), connecting the 300MW Thurrock Storage project to its transmission network at Tilbury substation in Essex.

What is the rated storage capacity of DP World London Gateway?

The rated storage capacity of the project is 1,750,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was announced in 2022. The project is developed by Penso Power; Luminous Energy. Buy the profile [here](#). 4. DP World London Gateway – Battery Energy Storage System.

How big is the UK's biggest battery?

According to the company, this puts it at 10 times the size of the largest battery currently operating in the UK. Indeed it will dwarf the UK's biggest active project so far, the 50MW / 75MWh Thurcroft battery storage site in South Yorkshire, which was recently acquired by stock exchange listed specialist fund Gresham House Energy Storage.

How many battery storage projects are there?

The pipeline of battery storage projects has continued to grow steadily again, from 84.4GW in December 2023 to 95.5GW in May 2024. This edition of the EnergyPulse report on Energy Storage shows there is 8.7GW of batteries in operation and under construction and more than 30GW projects have now been consented.
