

# **Long-term orders for photovoltaic energy storage containers**

## Overview

---

Three companies—Risen Energy, CATL, and Sungrow—have collectively secured orders exceeding 7.4 GWh, with their business scope covering the energy storage markets in Latin America, Southeast Asia, and Australia. What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

What is LZY solar storage?

LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.
