

Major large-scale energy storage plants in Ghana

Overview

Who carries out electricity distribution in Ghana?

Electricity distribution in Ghana is carried out by three main distribution utilities, two state-owned and one private sector operated. The Electricity Company of Ghana (ECG), the largest distribution company, is a limited liability company wholly owned by the government of Ghana.

What are the main sources of power in Ghana?

Overview of The Ghana Power Sector Ghana's power supply sources are from hydroelectricity, thermal fueled by crude oil, natural gas and diesel, solar and also imports from La Cote D'Ivoire. Ghana also exports power to Togo, Benin and Burkina Faso. Ongoing grid expansions would allow further exports to other neighboring countries in the sub region.

How many offshore gas fields are there in Ghana?

Ghana currently has three offshore producing fields, Jubilee, Tweneboa, Enyera and Ntomme (TEN) and Sankofa and Gye Nyame Field. However first Gas from the Sankofa and Gye Nyame Field is scheduled to come on stream in the third quarter of 2018.

Is Ghana a power producer country?

Ghana has a vibrant power generation terrain with players from both the public and private sectors. Reforms in the Power Sector in the 1980's gradually removed barriers and created a level playing field for the participation of independent power producers in an area which hitherto had only public sector participants.
