

Malawi new house rooftop solar system

Overview

How many buildings in Malaysia have rooftop solar?

According to Malaysia's Minister of Energy, Science, Technology, Environment and Climate Change (MESTECC), there are over 4.12 million buildings with solar rooftop potential in Peninsular Malaysia alone. If every one of those rooftops had rooftop solar installed, Malaysia could generate more than its current total electricity generation every year.

Could rooftop solar power power Malaysia?

If every one of those rooftops had rooftop solar installed, Malaysia could generate more than its current total electricity generation every year. That's an electrifying idea!.
