

Manufacturer of 50kW Solar-Powered Containers for Airports

Overview

What is 50KW/100KWh solar energy storage system integration?

The 50kW/100kWh Solar Energy Storage System Integration adopts the “All-In-One” design concept, which integrates the hybrid inverter, Li-ion battery, fire protection system, temperature control system, loads, and power grid to realize intelligent power management and dispatch.

What is a solar power storage system?

Additionally, a solar power storage system provides a clean and sustainable supply of energy, with the photovoltaic system converting solar energy into electrical energy and storing the excess.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.
