Overview

How fast does a power bank charge a phone?

Android's standard for these phones is called Qi, and power banks that are fully Qi-compatible offer faster charging speeds for Android devices with speeds capped at around 7.5 watts for iPhones. In all cases, you'll need to make sure your phone case is thin enough to allow inductive charging through the back of the phone.

Where can I buy a portable charger?

You can buy portable chargers from pretty much the same outlets as smartphones, tablets, and other devices. Apple and Samsung's official websites stock a number of portable chargers, while you can also find plenty from online retailers such as Amazon, Walmart, and Best Buy.

Should you connect your phone to a portable charger?

By connecting your phone to a portable charger, you can recharge your device without being tied to one location. Whether you prefer a large, robust charger that can power your phone for days or a slim power bank that easily fits in your bag for a quick charge, there's a suitable option for you.
