

Mongolia Sunshine Energy Storage Power Supplier

Overview

Why is Inner Mongolia constructing a new energy storage power station?

[Photo/Xinhua] HOHHOT -- Inner Mongolia Energy Group has started constructing a large-scale new energy storage power station in the Ulan Buh Desert, the eighth-largest in China, to better harness new energy power for grid connection.

Does Dengkou have a photovoltaic power station?

The energy storage power station built in Dengkou boasts photovoltaic power generating facilities with an annual capacity of generating 3.16 billion kWh of electricity, contributing to carbon dioxide emission reduction by 2.75 million tonnes annually while making ecological treatment of about 44,600 mu sand area.

How much does the Ulan Buh desert cost?

The project, which costs over 2.1 billion yuan (\$295 million), is expected to be connected to the grid by the end of this year. Spanning 15 million mu (1 million hectares), the Ulan Buh Desert has about one-third of its area distributed in Dengkou county, Bayannuur city. This city boasts a rich sunshine resource of over 3,000 hours a year.
