

# **New Delhi Energy Storage Cabinet Battery Key Project**

## Overview

---

Is India's first regulated utility-scale battery energy storage system online?

India's first commercial regulated utility-scale battery energy storage system (BESS) is now online. The 20MW/40MWh standalone system, developed by IndiGrid, was commissioned in Delhi on April 4.

Which energy storage solutions provider has commissioned BSES Rajdhani kilokari substation?

AmpereHour Energy, a full-stack energy storage solutions provider, in consortium with Indigrid, has commissioned BSES Rajdhani Power Ltd's (BRPL) 20 MW/40 MWh battery energy storage system (BESS) project at the BSES Rajdhani Kilokari Substation in Delhi.

Does indigrid have a battery energy storage system?

IndiGrid has announced the commissioning of the country's first regulated utility-scale standalone Battery Energy Storage System project.

Why is battery energy storage important in India?

Battery energy storage is a key enabler of a resilient and efficient power system in India as the country moves toward a cleaner energy mix. The ability to store and dispatch power intelligently will be essential in maintaining grid stability and optimizing renewable integration.
