

New Nordic Energy Storage Equipment Trading Platform

Overview

The new Euronext Nord Pool Power Futures market will be traded on Euronext's pan-European Optiq® trading platform and cleared by Euronext Clearing. How will Nord Pool & Euronext help the Nordic and Baltic power market?

The Nordic and Baltic power market is showing a recovery since the energy crisis, but action is needed to cement and accelerate that recovery. Nord Pool and Euronext will work to bring back liquidity to Nordic power derivatives, with a proven set up which will attract OTC traded volumes into the market.

How has the Nordic power system changed in 2024?

The Nordic power system and its electricity market have always been closely linked and in recent years, both have faced profound change. The biggest shift came on 30 October 2024, when the day-ahead (DA) market switched from the long-used Available Transmission Capacity (ATC) method to Flow-Based Market Coupling (FBMC). What is the difference?

.

What's new in the Nordic market?

The other significant, recent change in the Nordic market is the new Nordic balancing model, which went live on 4th March 2025. More on that in the last section of this blog.

What is Nord Pool & Nasdaq Commodities?

Nord Pool: The leading power market in the region, offering day-ahead and intraday trading, as well as futures and derivatives. Nasdaq Commodities: Provides a platform for electricity derivatives trading, focusing on Nordic and Baltic electricity markets.
