

# **New energy storage company in Toronto Canada**

## Overview

---

What is the largest battery energy storage facility in Canada?

July 25, 2025 – With 278 lithium-ion battery units—each weighing more than 84,000 lb—now drawing and storing power from Ontario’s electricity grid, the Oneida Energy Storage Project has officially entered commercial operation, becoming the largest battery energy storage facility in operation in Canada, and among the largest globally.

What are the top 10 energy storage companies in Canada?

This article will mainly explore the top 10 energy storage companies in Canada including TransAlta Corporation, AltaStream, Hydrostor, Moment Energy, e-STORAGE, Canadian Renewable Energy Association, Kuby Renewable Energy, e-Zinc, Selantro, Discover Battery.

What is the Oneida battery energy storage project?

Oneida Battery Energy Storage Project, April 2025 TORONTO, May 07, 2025 (GLOBE NEWSWIRE) -- The Oneida Energy Storage Project (“Oneida”) has officially entered commercial operations, becoming the largest battery energy storage facility in operations in Canada, and one of the largest globally.

Why is energy storage important in Canada?

With a target of net-zero emissions by 2050, energy storage is vital for enhancing grid reliability and integrating renewables. Currently, Canada’s installed storage capacity is under 1 GW, but projections indicate a need to boost it to over 12,000 MW by 2030, making the market ripe for development and financing.
