# New solar panel factory in West Africa

## Overview

---

Who makes solar panels in South Africa?

Located in the Eastern Cape, Seraphim Solar specializes in the research, development, and manufacturing of solar cells and modules. With a production facility capable of producing up to 300 MW annually, Seraphim offers various types of solar panels, including bifacial and dual-glass modules.

4. IBC Solar South Africa.

Who are the leading solar companies in Africa?

Africa's solar energy sector is experiencing significant growth, driven by the continent's abundant sunlight and increasing demand for sustainable energy solutions. Several companies across Africa are leading the charge in solar panel manufacturing and deployment. Here are ten notable solar companies making an impact: 1. ARTsolar (South Africa).

Who makes artsolar solar panels in South Africa?

Founded in 2010 and based in Durban, ARTsolar is South Africa's only locally owned solar panel manufacturer. The company produces high-quality photovoltaic (PV) modules and has a production capacity of up to 250 MW per year. ARTsolar's panels are internationally and locally certified, catering to both residential and commercial markets. 2.

Which solar companies are making an impact in South Africa?
