Nigeria Lagos Energy Storage Power Station Dispatch Subsidy

Overview

Will the Lagos electricity bill 2024 be a success?

The Lagos State House of Assembly has passed the Lagos Electricity Bill 2024 to establish an independent electricity market and regulatory framework, replacing the 2018 law. While promising a competitive market and renewable energy initiatives, experts warn that outdated infrastructure and unclear policies could hinder its success.

How much electricity does Lagos need?

Lagos, Nigeria's commercial hub, whose electricity bill is progressing at the State House of Assembly has a demand of about 12,000 megawatts (MW) of electricity. That is about 90 per cent of the current national installed 13,000MW capacity.

How many people in Nigeria lack electricity?

According to the International Energy Agency (IEA), 140 million people in Nigeria lack access to electricity, constituting 71% of the country's population. Addressing this energy shortfall is critical, but the challenge extends beyond mere electrification.

Does Nigeria have a power problem?

Nigeria, Africa's largest economy and leading oil producer, faces a significant power dilemma. According to the International Energy Agency (IEA), 140 million people in Nigeria lack access to electricity, constituting 71% of the country's population.
