

Niue professional maintenance of solar air conditioners

Overview

When will the Niue energy project be completed?

The project will be completed mid-2026 when the Government of Niue under the Department of Utilities and Niue Power Corporation (NPC) will take over the ownership. We anticipate savings of 816,000 litres of fuel and 2,202 tCO₂e in year one. It will support Niue to deliver on our climate goals and Nationally Determined Contributions (NDCs).

Do solar panels need maintenance?

Routine maintenance tasks are crucial for the optimal performance of solar energy systems. These tasks include cleaning solar panels to remove dirt, dust, pollen, bird droppings, and other debris that reduce their efficiency. Generally speaking, rainfall does a great job at keeping panels clean, but more stubborn debris can accumulate through time.

Do you need a solar professional to maintain your solar system?

Safety is paramount when performing solar system maintenance. Therefore, it is always best to use a licensed solar professional. They will de-energise the solar system and disconnect it from the grid before performing any maintenance tasks to avoid electrical shocks.

Do solar energy systems need periodic maintenance?

Solar energy systems are a significant investment, providing clean and renewable energy for homes and businesses. To ensure that these systems perform efficiently and last for many years, periodic maintenance is important, but often overlooked.
