

# **Nordic Chemical Energy Storage Project**

## Overview

---

What is the largest battery energy storage project in the Nordics?

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower.

How much storage capacity does Seb Nordic energy have?

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

What is the biggest investment in energy storage in the Nordics?

In comments at the ceremony, Pourmokhtari said, 'It is a great honour to launch the largest investment in energy storage in the Nordics, with 211 MW of electricity currently connected to the grid. 'Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and increasing power generation.'.

Is there a future battery storage park in Finland?

Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.
