

Nordic solar Energy Storage Cabinet BESS

Overview

Which companies are launching Bess projects in the Nordics & the Baltics?

News from the Nordics and the Baltics, with BESS projects launched in Sweden, Denmark and Latvia by Centrica, Nordic Solar and Niam Infrastructure and Evecon. UK-headquartered utility Centrica has acquired a 100MW battery energy storage system (BESS) portfolio in Sweden from Swiss developer and independent power producer (IPP) Fu-Gen AG.

Are battery energy storage systems a key part of the Nordic energy transition?

Battery energy storage systems (BESS) continue to play a vital role in the Nordic energy transition. Based on Marsh's experience in advising BESS owners in the Nordics, cold climate challenges, ensuring safety, and optimizing spacing are key topics that are discussed for BESS development in the region.

Could a solar-and-storage portfolio in Latvia have 26MW of Bess capacity?

Investment firm Niam Infrastructure and developer Evecon will together deploy a solar-and-storage portfolio in Latvia that could have up to 26MW of BESS capacity.

What are the risks associated with Bess projects in the Nordics?

However, several fundamental risk parameters specific to BESS projects in the Nordics needs to be addressed by the project owners. These include natural catastrophe (NatCat) risks from extreme weather, such as heavy snowfall, storms, or flooding that can damage installations and allow water to reach batteries, which must remain dry.
