North Cyprus Solar Power System

Overview

Does Cyprus have solar power?

Solar power in Cyprus benefits from over 3,300 hours of sunlight annually, giving it the highest potential in the European Union (EU). The 2023 IRENA Energy Profile for Cyprus highlights the increasing significance of solar energy in the country's renewable energy mix.

Is Cyprus a good place for solar energy?

With its strategic geographical location, Cyprus enjoys more than 300 sunny days annually, making it an ideal environment for solar energy generation. Embracing this potential, the island harnessing solar power, with solar systems and photovoltaic solar panels emerging as a cornerstone of its renewable energy infrastructure.

Where can I get solar panels in Cyprus?

Flux Energy, based in Limassol, is your go-to for energy solutions in. Cyprus Solar panels lists local companies specializing in solar panel, solar systems installation and Photovoltaic Solar Panels in Cyprus. Solar panels are used in Cyprus more than in any other country in Europe due to the year-round sunshine the island has.

Why should you install solar panels in Cyprus?

Solar panels in Cyprus are the perfect solution:

- Lower Electricity Bills – Once installed, solar panels in Cyprus can reduce your dependence on the grid by up to 70-100%.
- Energy Independence – With rising electricity prices from EAC, solar energy gives you more control over your own energy supply.
