

North Macedonia Outdoor Power Company

Overview

Why is Alcazar energy launching a wind farm in North Macedonia?

Daniel Calderon, Co-Founder and Managing Partner of Alcazar Energy, said: “We are thrilled to launch a major wind farm project in the Western Balkans, providing North Macedonia with clean, affordable electricity and creating local jobs. Alcazar Energy sees North Macedonia as a promising investment location for renewable energy.

Is North Macedonia ready for Energy Independence?

Hristijan Mickoski, Prime Minister of North Macedonia, stated: “We are standing ahead of the largest investment in renewable energy sources that we ever had. This investment marks the beginning of the government’s policy to create energy independence for Macedonia.

What changes did North Macedonia make to its energy policy?

While there were no other major energy legislative changes, North Macedonia continues to harmonize its energy sub-regulations with the EU Energy Community’s Third Energy Package (TEP).

How is North Macedonia transforming its energy sector?

North Macedonia’s energy sector is transitioning towards cleaner and more efficient solutions. While lignite remains a primary energy source, the country is significantly increasing investments in renewables, including: Hydropower – A well-established sector with untapped potential for small and large-scale projects.
