

# Number of 5G base stations in Sweden

## Overview

---

Where is the 6g network being installed in Sweden?

The 6G network is currently being installed in the underground lab at Luleå University of Technology. Are you looking for information on 5G regulation and law in Sweden?

This CMS Expert Guide provides you with everything you need to know.

Does Sweden have 5G?

5G deployment is underway in Sweden. In October 2023, 92% of the population had coverage from 5G networks. The government has not imposed any requirements on operators regarding the deployment of 5G, but there are coverage requirements in various frequency bands in order to improve mobile coverage in Sweden.

What is the European 5G Observatory?

The European 5G Observatory tracks progress in 5G infrastructure deployment across the EU and other regions worldwide according to base stations deployment, edge nodes and infrastructure sharing agreements. Source: IDATE estimates and regulators' data. Reporting period: at December 2024. Source: IDATE estimates and regulators' data.

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.
