

Off-grid solar container DC price reduction

Overview

How much does an off-the-grid solar system cost?

The off-the-grid solar system cost of a DC system averages about \$6,000 to \$10,000, and consists of nothing more than a few solar panels that provide power to just a few appliances. Similar to a simple DC solar system, but with a battery backup to store electricity for cloudy days, a mixed DC and AC system costs between \$10,000 and \$50,000.
