

LLSE CONTAINERS

Off-grid solar container for agricultural irrigation 50kW

Overview

What is a 50kw off-grid Solar System?

In a 50kW off grid solar system, you will get solar panels, off-grid solar inverter, solar batteries and other solar accessories. This system is specially designed to provide long power backups during power outages or nights. Solar panels generate electricity by absorbing the sunlight in the daytime and run your connected load.

What is an off-grid 30kW Solar System?

An off-grid 30kW solar system consists of solar panels, a solar inverter, and a battery among other necessary gadgets. The battery, which is sufficiently powerful to run up to 24 kW load, stores the extra power generated by the solar panels to make it useful in the future.

What is a 50kw Solar System?

In rural areas where access to the main power grid is limited, Maxbo's 50kW solar systems serve as reliable energy sources, providing the necessary power for residential homes, schools, health clinics, and community centers. These systems bring modern amenities to off-grid locations, enhancing quality of life and supporting community development.

Can a 50kw Solar System be used for industrial applications?

Maxbo's 50kW solar system is also adaptable for industrial applications, where high-powered equipment and continuous operation are essential. Our systems are engineered with robust components, reinforced solar panels, and heavy-duty inverters capable of handling the demands of industrial machinery.
