

Off-grid solar container high-voltage type after-sales service

Overview

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

What is an off-grid container?

The Off Grid Container also transports the solar PV panels and mountings, the only part of the product which has to be assembled at the customer's site. The on-site installation is undertaken by the Off-Grid installer team and after all clients are included in the online remote monitoring service.

Why should you buy an off grid Solar System?

One-stop complete off grid solar system for sale. Special customized system to meet the needs of home owners to achieve 7*24 hours of power supply. Achieving energy autonomy is an investment with a high rate of return. Your factories, businesses, and farms will have 0 electricity bills for decades.
