Is Elin a good investment for Turkey's solar power industry?

With a new 750 MW/year PV module factory, Elin is positioned to play a significant role in the growing solar power industry in Turkey. The solar power industry in Turkey presents various opportunities and considerations for potential investors and stakeholders.

Where are solar inverters located?

Microinverters are located on the roof near the solar panels, due to which these inverters are more efficient than string inverters when it comes to converting energy. Solar systems with microinverters can still generate electricity, even if one or two panels do not perform properly.
