

Outdoor energy storage field in Milan Italy

Overview

Why is Fiera Milano the largest PV plant in Italy?

The inauguration of the largest PV plant in Italy at Fiera Milano marks a historic advancement in the country's renewable energy sector. By supporting major events and contributing to Milan's energy grid, the plant exemplifies the synergy between technological innovation and environmental responsibility.

What is the biggest photovoltaic system in Italy?

Milan Fairgrounds has installed the biggest photovoltaic system in Italy, generating 22 GWh for on-site use & feeding excess energy into the Italian grid.

Does Milan have a photovoltaic plant?

Having hosted the 2015 Expo with the theme "Feeding the Planet, Energy for Life", Milan demonstrated its commitment to sustainability and innovation. A landmark project has emerged: the inauguration of Italy's largest photovoltaic (PV) plant at the Fiera Milano in Rho in May 2024.

What is Fiera Milano solar power?

The goal was to create a solar power system capable of supplying the large energy demands of the Fiera Milano exhibition complex. The plant's design and construction took several years, with the initial concept dating back to 2020, culminating in the plant's opening in 2024.
