

Outdoor power that can last for a day

Overview

How long does a portable power station last?

A portable power station's lifespan depends on the type of battery inside. Most new portable power stations, including all the models we recommend here, feature LiFePO4 battery technology, which lasts far longer than older lithium-ion technology. How much more?

LiFePO4 power stations will last for more than 3,000 charge cycles, or about 10 years.

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

What is the best portable power station for off-site work?

Best portable power station for on-site work With a 1070Wh, 1500W output, and UPS, during our testing this unit proved ideal for when you need a reliable and pretty powerful unit for off-site work. And this redesigned version is a lot more portable, too. Read more below 5. Bluetti AC180T Best portable power station with swappable batteries.

How long does a LiFePO4 battery last?

LiFePO4 power stations will last for more than 3,000 charge cycles, or about 10 years. That's far longer than the 500 or so charge cycles and 3 to 5 years you'll get from an older power station with a lithium-ion battery. How long does it take to recharge a portable power station with solar panels?
