

Outdoor solar light awning

Overview

Why should you buy a solar awning?

Enjoy a sheltered outdoor oasis with protection from the sun, UV rays and light rain. Stay cool on scorching summer days, reducing temperatures by up to 20° for refreshing outdoor relaxation Embrace green living with the industry's first solar-powered smart awning with internal Wi-Fi connectivity.

What is a solar awning?

There are two different definitions of solar awnings. One is an awning that runs with its solar panel. The awnings extend and retract automatically using solar power. The second is awnings lined with solar panels that provide shade and generate power. However, they don't generate that much electricity, so the technology isn't quite there yet.

What is a solar RV awning?

A solar RV awning is a retractable awning made of high-performance solar panels. When the awning is deployed, the solar panels are exposed to the sun to generate power, while the RV's electrical system harnesses it and stores it in the rig's battery bank.

What is a patio awning?

A patio awning is a shading solution that creates a cool and shady retreat to enjoy outdoor areas, protected from the sun. For our Patio Awnings, we use world class brands for the fabric, offering the highest level of UV protection and the latest self cleaning technology. For reliability, we use awning motors and controls from market leader Somfy.
